ADDENDUM TO MEMORANDUM OF AGREEMENT DATED DECEMBER 15, 1988

SUBJECT: Organizational Restructure of the National
Reconnaissance Office

We endorse the proposal for planning the restructure of the National Reconnaissance Office outlined in the Memorandum of Agreement of December 15, 1988. We fully support the objectives of the restructuring to develop a single integrated system of reconnaissance satellites and to improve the service of that system to all of its users through more substantive participation in the requirements and planning process. Because of the far reaching effects of certain organizational changes our prior approval will be required for those changes involving more than unified planning and analysis and user support functions.
